Product highlights

Wireless Streaming

With wireless streaming, you do not have to wait to download and store a large file on your audio device before listening to your favourite songs. Instead, the music is sent in a continuous stream and is played as it arrives to up to 5 music stations at the same time. Your music can now follow you everywhere in your home.

Multiple User Access

Different family members in five different rooms can access & listen to their own choice of music from the Wireless Audio Center at the same time.

Music Broadcast - Party mode!

Be your own DJ at your home party and simultaneously broadcast your favourite dance music from the Wireless Audio Center to all Wireless Audio Stations installed in various parts of your home. Great for parties!

Music Follows Me between rooms

Music Follows Me feature allows you to bring your favourite music from room to room in your house without having to restart navigation and playback of that particular track. By simply pressing a button, your favorite song will follow you anywhere you go in your house.

Direct Content Access

No more searching through hundreds of your CDs to find your favourite track by a particular artist. With the intuitive User Interface built-in the Philips Wireless Audio Center, you can now have almost instantaneous and direct access to your stored digital music collection on the hard disk (up to 750 CDs) and go straight to the music you want to listen to, listed by Artist, Album, Playlist, Genre or Tracks.

Universal Plug & Play

Add-on up to 5 Wi-Fi stations
